INFORMATION

Bulbs are sized as follows: No. 1 1½ in. or more in diameter; No. 2 1¼ to 1½ in.;
 No. 3 1 to 1¼ in.; No. 4 ¾ to 1 in.; No. 5 ½ to ¾ in.; No. 6 ¼ to ½ in.

In common with many growers, we list all bulbs of No. 1 and No. 2 sizes as L (large)
 size, as either size will give good full sized blooms. Nos. 3 and 4 are listed as M. (medium)

size and will bloom well but not quite as early and some kinds not quite as large. Nos. 5 and 6 are listed as S. (small) size, and while many such will bloom the blooms will be smaller and considerably later to bloom, but will make fine bulbs for the next year, can be bought much cheaper, and will produce lots of bulblets. L. size will be about ½ No. 1 and ½ No. 2. M. about ½ 3 and 4; S. usually more 5 than 6.

Some kinds divide themselves naturally into two or more new bulbs when L. size are planted. Other kinds grow to be 2½ to 3½ inches in diameter and are often called J. (jumbo) bulbs. The J. bulbs can be peeled and cut in two and each half will produce a fine bloom and nice large new bulb. Peel and cut carefully (just before planting) right down through the middle of bulb, which will leave an eye on top and part of root surface on bottom of each half. Plant the same as an L. size bulb. J. size bulbs are quoted slightly higher than L. size, as each will give two when cut.

All prices in this list are postpaid. We issue a wholesale sheet for those wishing to buy 250 or more of one size and variety. It is free.

We never substitute without your permission, only that in the same variety we may give equal or better value in a different size if out of the size ordered unless you request us not to do so. If out of variety ordered we return your money unless you give us a second choice. A second choice is often wise, as it may save correspondence, and we are always very liberal in filling second choice orders.

We guarantee all stock true to name. If a mistake occurs we will replace liberally or refund your money.

Our stock has been twice state inspected, once while growing and again in storage, and was pronounced 100 per cent healthy.

Ninety percent of our bulbs are grown on soil that never grew Glads before. We rotate with vegetables, field crops and other flowers.

Minimum item of bulbs 10c; half dozen bulbs at dozen rate; 25 bulbs at 100 rate.

Pints and Half Pints of bulblets at the Quart rate. Any quantity of bulblets at the 1000 rate but no bulblet item less than 15c.

TERMS: Cash. 25 Percent will hold order till April 1 if desired.

AN INVITATION

Located as we are on the paved Jefferson Highway (No. 1) we sell thousands of cut flowers to passersby as well as locally, and also ship many cut blooms, both wholesale and retail. These consist of tulips, iris, peonies, delphiniums, various other annuals and perennials and gladiolus. Whenever we have sufficient to do so, we slip in extras with every order, and I know we enjoy it as much as the customer does.

The "youngest and fairest" member of our family, Miss Dorene (now sweet 16) is usually flower girl in the summer vacation, and somehow never can stop at 12 for a dozen and she says daddy is no better, for she says his bulb dozens are usually 13 or 14, so why shouldn't her flower dozens be the same? Anyway come and see the flowers whether you buy or not. We enjoy showing them and giving lots away almost as well as selling them.

Some folks say that is why we don't get rich at the flower business. Maybe so. Anyhow we enjoy giving to the church, many sick people, or even some poorly dressed people in a battered old Ford that just seem to love flowers as well as if they were millionaires.

CUT FLOWERS BY MAIL

When plentiful we sell all cut flowers here at 50c a dozen. We cut in bud and pack for shipment at 75c a dozen, and we ship postpaid at \$1.00 a dozen up to 500 miles. If distance is short we add more flowers to equalize the less parcel post rate. In other words, you always get your money's worth. Peonies and gladiolus ship well and open up finely on arrival when placed in water.

AMERICAN GLADIOLUS SOCIETY

The American Gladiolus Society is an organization that sponsors an annual gladiolus show and assists the regional shows and publishes a monthly magazine devoted entirely to Gladiolus. Membership is \$2.00 a year including the magazine. Every Glad. lover should join. Send the \$2.00 to Roscoe Huff, Sec'y, Goshen, Ind., or send it to me and I'll send it in and also allow you to select any 50 cents worth of Glad bulbs from my list free.

THE FLOWER GROWER, CALCIUM, N. Y.

is the best all round flower magazine in America. Subscription \$2.00 per year, \$5.00 for 3 years.

EXTRAS

We always slip in some extras with every order, the number of course depending on the size of the order. Usually the extra or extras will be different than any in your order and often newer varieties when we can spare them.
